Illinois Power Agency Updates Energy Workforce Equity Portal

January 19, 2024

In its ongoing commitment to fostering a diverse and inclusive clean energy industry, the Illinois Power Agency (IPA) is pleased to announce a user-focused update to the [Energy Workforce Equity Portal](#).

A new enhancement in the form of a banner, specifically intended to guide those who are currently employed with clean energy companies participating in IPA-administered programs and are seeking certification as Equity Eligible Persons (EEPs), will be added to the Portal. This banner will reside on the home page, Employers page, and Job Seekers page, offering clean energy companies and their employees a simplified pathway within the Portal to ensure efficient navigation toward Equity Eligible Person certification, in support of those employers' efforts to meet the Minimum Equity Standard (MES).

The IPA remains dedicated to refining and enhancing the Energy Workforce Equity Portal to meet the evolving needs of our stakeholders.

For questions or feedback, please contact IPA.EnergyEquity@illinois.gov.
